Theme..

Social Impact & Public Safety Creating a digital bridge between anonymous citizen reporting and dignified handling of unclaimed bodies.

Problem..

In India, an estimated 30,000 Cases of Honour Killing occur every year yet Shocking only 25-35 cases are officially Registered.

The Rest Vanish into Silence, buried under the Weight of caste Bias and Social pressure

The Core Challenges We Aim To Solve...

- ✓ **Lack of a unified platform**, to report unclaimed/unidentified dead bodies.
- ✓ **Fear among public**, to report due to legal hassles or identity exposure.
- ✓ **Delayed response**, leads to loss of identity and dignity of the deceased.
- ✓ **No real-time tracking**, or coordination between police, hospitals, and authorities.

PROPOSED SOLUTION

❖ **Avyakta**” is a secure, intuitive digital platform built to report unclaimed or unidentified dead bodies without fear, legal stress, or exposure—bringing dignity, accountability, and action to an often-ignored problem.

- ✓ **Anonymous Reporting System**

Users can report unclaimed bodies without revealing personal identity, using a form that captures critical details responsibly.

- ✓ **Real-Time Geolocation and Timestamp**

With automatic detection of location, date, and time, the platform ensures accurate data without user effort—offering a faster, reliable response mechanism.

- ✓ **Chatbot Assistance with Real-World Scenarios**

An interactive chatbot helps users navigate realistic questions, like what to do if someone is still alive or if police must be contacted anonymously.

- ✓ **SOS Button for Critical Cases**

A dedicated SOS feature lets users raise urgent alerts for emergency cases—ensuring immediate visibility by the admin or authorities.

- ✓ **Admin Dashboard for Verification & Management**

A secured backend panel allows admin authorities to verify, track, and manage submitted reports in real-time for authenticity and action.

- ✓ **Mobile-Optimized, User-Friendly UI**

Designed for responsiveness and clarity, the platform ensures quick access on any device—especially vital for on-the-spot reporting.

- ✓ **Emotional UX With Empathetic Design**

From colors to wording to flow, the site is built to be emotionally comforting, helping users feel supported rather than

Avyakta

The Unseen, Now Seen

“Workflow & Functionality of Avyakta – The Unseen, Now Seen”

- **Avyakta is a unified platform designed to facilitate the reporting, tracking, and resolution of unclaimed or unidentified deceased cases with dignity, transparency, and technological support.**
 - ❖ **This flowchart illustrates the entire journey of a report, starting from the user landing on the homepage and selecting a desired action – whether to report a case anonymously, seek emergency help, or interact via AI Chatbot.**
 - ❖ **The user fills out a minimal form with key details (date, time, description, image), ensuring the process is quick, ethical, and sensitive. The system ensures each submission is timestamped and traceable, preventing false claims.**
 - ❖ **Submitted cases are instantly visible on the admin dashboard, where they are coordinated in real-time with police authorities, hospitals, and local bodies.**
 - ❖ **Through this streamlined approach, Avyakta minimizes delay, promotes trust, ensures privacy, and maximizes social responsibility in dealing with the most neglected part of society — the unidentified.**
 - ❖ **This isn't just a reporting system — it's a memorial movement, a technological bridge, and a voice for the voiceless**

Every Soul deserves remembrance. Every life deserves respect. Avyakta is that promise, turned into action

- ✓ **Anonymous Case Reporting**
- ✓ **Location Integration**
- ✓ **Optional Image Upload**
- ✓ **Live Chat Support**
- ✓ **Admin Dashboard**
- ✓ **Multilingual Support**
- ✓ **Emergency Help Button**
- ✓ **Contact & Support System**
- ✓ **Consent-based Guidelines**
- ✓ **Awareness-Driven UI**

Novelty of the Solution

- ❖ **First-of-its-kind for Orphan/Unclaimed Bodies in India.**
- ❖ **Trust-focused & Non-judgmental: Removes fear of legal trouble or exposure.**
- ❖ **Timely Identification & Dignified Disposal: Prevents loss of identity of deceased.**
- ❖ **Seamless Coordination with Authorities: Acts as a bridge between police, hospitals, and NGOs.**
- ❖ **Emotionally Impactful UI/UX, Designed to encourage empathy and social responsibility.**
- ❖ **AI Chatbot Integration, Smart guidance for users and real-time communication.**
- ❖ **Guideline Acceptance Before Reporting: Ensures ethical, informed, and secure participation.**

FEATURES

NOVELTY

⚠️ 1. Verification Challenge

- **Verifying anonymous reports without compromising user trust remains difficult.**
- **May lead to false positives or spam reports.**

⚠️ 2. Dependency on Manual Coordination

- **Still relies on local police, hospitals, and admin response speed.**
- **Delays in real-world action may affect the outcome, even with fast digital reporting.**

⚠️ 3. No Biometric or Legal Integration Yet

- **Currently not integrated with government identity databases or police systems.**
- **Full adoption would require legal clearance and protocols.**

⚠️ 4. Internet & Accessibility Limitation

- **Platform needs internet and basic digital literacy, which may not be available in rural or low-tech areas.**

⚠️ 5. Emergency Overload Risk

- **During mass events or disasters, admin dashboards may receive an overwhelming number of reports, causing delay in response.**

💡 How We Plan to Overcome...

- ❖ **Partnering with government and NGOs for verification.**
- ❖ **Automating emergency response with AI triggers.**

"Tech should not just be smart — it should be soulful. **Through** Aavyakta, we're giving voice to the voiceless and dignity to the forgotten..."

-Team Aavyakta

"Thank you for your time, support, and belief in our mission."

thank you

Through Avyakta, we aim to give voice to the voiceless, identity to the forgotten, and dignity to the departed. This is more than just a project —It's a step toward humanity, unity, and social responsibility.

We are not just solving a problem. We are fulfilling a purpose.
